CYBERSECURITY AWARENESS - EMAIL

Safety tips for your email:

- Change your password often
- Use strong passwords
- Use a different password for each of your accounts
- Don't open any suspicious attachments
- Beware of "Enable Macros"
- Use updated anti-virus software

CYBERSECURITY AWARENESS - EMAIL

- Learn how to recognize phishing attempts:
 - Messages that contain threats to shut your account down
 - Requests for personal information, such as passwords or Social Security numbers
 - Words like "Urgent" false sense of urgency
 - Forged email addresses
 - Poor writing or bad grammar
 - Look at the time the email was sent
- Hover your mouse over links before you click on them to see if the URL looks legitimate
- Don't give your email address to sites you don't trust

CYBERSECURITY AWARENESS - EMAIL

- Don't post your email address to public websites or forums
- Don't click the "Unsubscribe" link in a spam email
- Don't send personal information in an email message
- Don't reply to spam
- Don't share passwords
- Be sure to log out

CYBERSECURITY AWARENESS - SOCIAL MEDIA

- Never "click and tell"
- Update your privacy settings
- Connect only with people you trust
- Report suspicious or harassing activity

CYBERSECURITY AWARENESS - TRAVELING

- Before you go
 - Backup your information
 - Connect only with people you trust
 - Keep software up-to-date
 - Double your login protection
- During your trip
 - Stop auto connecting
 - Stay protected while connected
 - Guard your mobile devices
